
Lock Naomi Campbell up

This stupid bitch needs locking up for a couple of years. Who the fuck does she think she is? she's not even good-looking, she's just a skinny arrogant idiot who got lucky. I wouldn't fancy her if she was the last woman on earth. I hope they look her up for a couple of years, anybody else who had done what she had would be in a cell by now, why should she get away with it?

Typical, the silly cow got a non-custodial sentence. I suppose she fluttered her eyelashes at the magistrate. If that had been a normal member of the general public, I reckon they would have got a custodial sentence. Anyway, she's got aggression problems, it won't be long before she's back in in front of the beak, just you watch this space
